

# problem 6

Write a C program to add two matrix using pointers.

# expected output:

```
C:\Windows\System32\cmd.exe

E:\int school\c pool\p121>gcc main.c
E:\int school\c pool\p121>a.exe
Enter elements in first matrix of size 3x3:
1
2
3
4
5
6
7
8
9
Enter elemetns in second matrix of size 3x3:
9
8
7
6
5
4
3
2
1
Sum of first and second matrix:
10 10 10
10 10 10
10 10 10
```
