

problem 8

Write a C program to check whether a triangle is valid or not if angles are given using if else.

Property of a triangle

expected output:

```
C:\Windows\System32\cmd.exe
Microsoft Windows [Version 10.0.17134.228]
(c) 2018 Microsoft Corporation. All rights reserved.

E:\IMT C pool\if conditions\p8>gcc main.c

E:\IMT C pool\if conditions\p8>a
Enter three angles of triangle:
60
90
30
Triangle is valid.
E:\IMT C pool\if conditions\p8>
```
