

# problem 4

**Write a c code that will ask the user  
to enter two values and swap  
(without using Third variable)  
Then print it**

# expected output:

```
C:\Windows\System32\cmd.exe
Microsoft Windows [Version 6.3.9600]
(c) 2013 Microsoft Corporation. All rights reserved.

E:\imt school\c pool\p4>gcc main.c

E:\imt school\c pool\p4>a.exe
Enter first number: 5
Enter second number: 6

.....After swapping.....
firstNumber = 6
secondNumber = 5
E:\imt school\c pool\p4>
```
