

# problem 3

**write C Program to input  
a number from user and  
check whether given  
number is even or odd  
using functions.**

# expected output:

```
C:\Windows\System32\cmd.exe
Microsoft Windows [Version 10.0.17134.228]
(c) 2018 Microsoft Corporation. All rights reserved.

E:\IMT C pool\functions\p3>gcc main.c

E:\IMT C pool\functions\p3>a
Enter any number: 2225
The number is odd.
E:\IMT C pool\functions\p3>
```
