problem 3

Write a c code that will ask the user to enter two values and swap then print it

expected output:

```
C:\Windows\System32\cmd.exe

Microsoft Windows [Version 6.3.9600]
(c) 2013 Microsoft Corporation. All rights reserved.

E:\imt school\c pool\p3>gcc main.c

E:\imt school\c pool\p3>a.exe
Enter first number: 5
Enter second number: 3

 ......After swapping......
firstNumber = 3
secondNumber = 5
E:\imt school\c pool\p3>
```
