problem 11

Write a C Program to find reverse of a string using pointers

expected output:

```
C:\Windows\System32\cmd.exe

Microsoft Windows [Version 6.3.9600]
(c) 2013 Microsoft Corporation. All rights reserved.

E:\imt school\c pool\p125>gcc main.c

E:\imt school\c pool\p125>a.exe
Enter any string: tmi

Original string = tmi
Reverse string = imt
E:\imt school\c pool\p125>
```
